It's my priority for this evening  
We just had a family emergency in my [redacted] and my [redacted] an ever.  
Everytime I have a sec to deal with it they're crawling all over me and also suffering from insomnia so they just have zero downtime which gives me no time to get better or work on business

Please let me know if you need more time to go over the ledger?

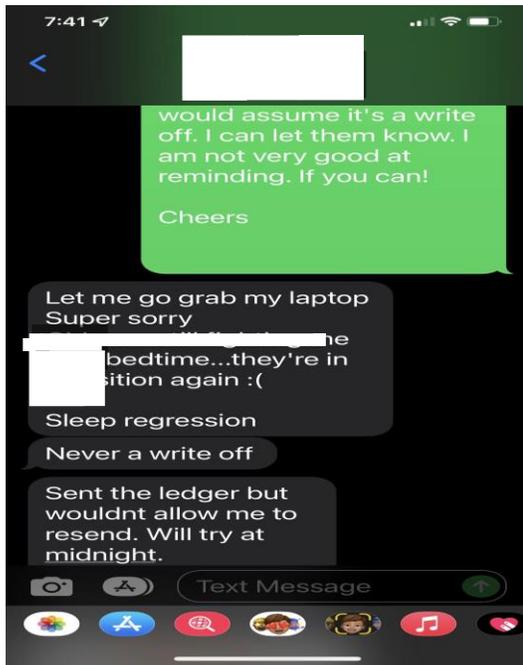

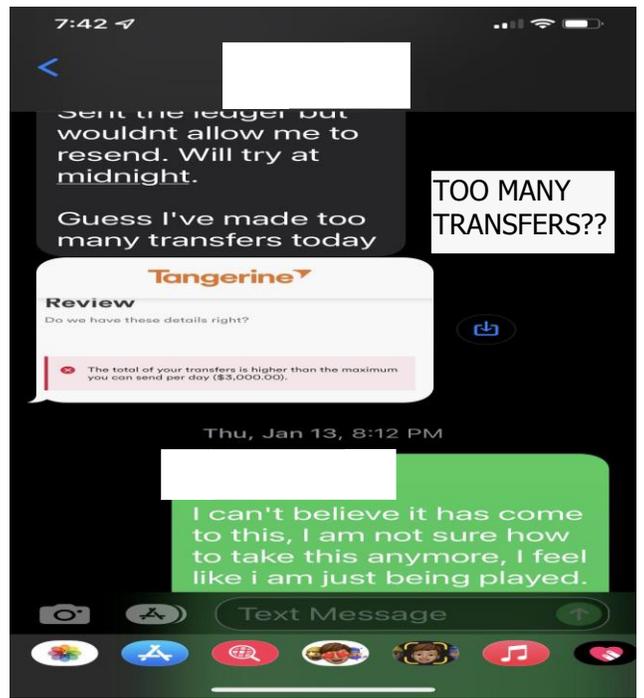

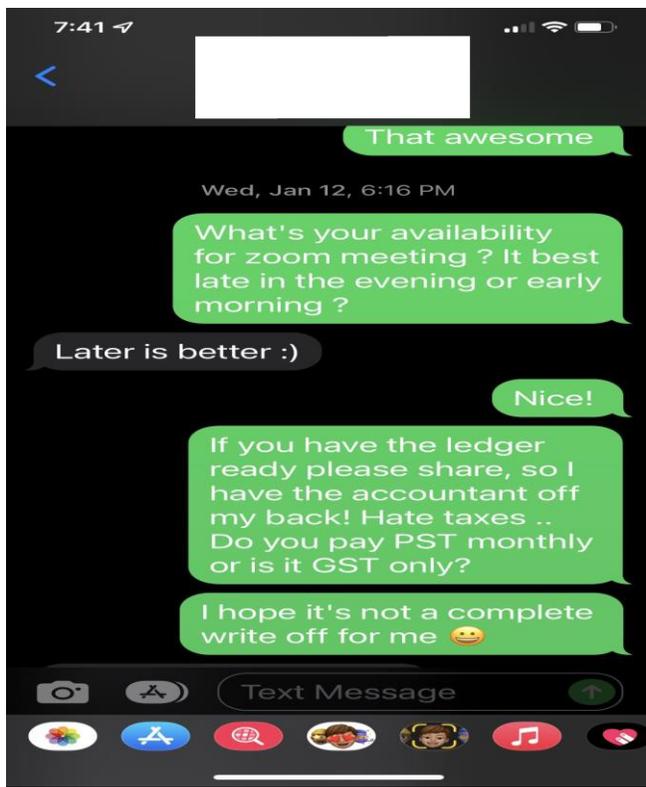

Hope everything is going well for you.

I can't believe it has come to this, I am not sure how to take this anymore, I feel like i am just being played.

I provided you with all my winter stock, without any deposit, which I am regretting now. I was hoping to work together in the future, you seemed like a legit, cool person. This is only peanuts we are dealing with, I have bigger plans.

At the moment you are putting me in a very

7:42

Don't leave me hanging!

What would you have done if you were in my place?

...less no no no you 100% haven't been played. Can I call you

You have not been played! I know it's TRUE we all have things were dealing with and I have legitimately kept you in the loop 100%.

I understand how it has looked but I promise you its not how it is

ANY ONE CAN FIGURE OUT SOMETHING'S UP

7:42

I understand how it has looked but I promise you its not how it is. Everything I have said is 100% true and I have a multitude of people who can vouch.

I was away doing a trade show and signed up for a 16 day event without even looking into the finer details...I attended the worst, most disorganized event I have ever done in my life and it cause so much stress and illness on my body and my family. We all got sick because I am a solo mom of not one but two toddlers. My AGAIN NOW

7:44

Have you got any show coming up?

If you need someone to cover, I am happy to help!

Could you please check the ledger ? According to the books the total sales were 3855, and with 30 percent commission, it should  $3855 - 1066.50 = 2788.50$  you kept the 70 percent and sent me 30 percent indeed.. 🤔🤔

It should be the other way around 🤔🤔🤔

Wholesale ??/

7:30

Haven't switched new phone over to old number. Just saw your message..

Generally when you purchase wholesale you pay \$2 and sell for 2.5 % is the retail rule of thumb.

I've done lots of business transactions over the years and I have a max \$ per item as well as max percentage.

Because in that case if it were 70% to you, I'd be asking you pay a % of my time/ cost to be at my event.

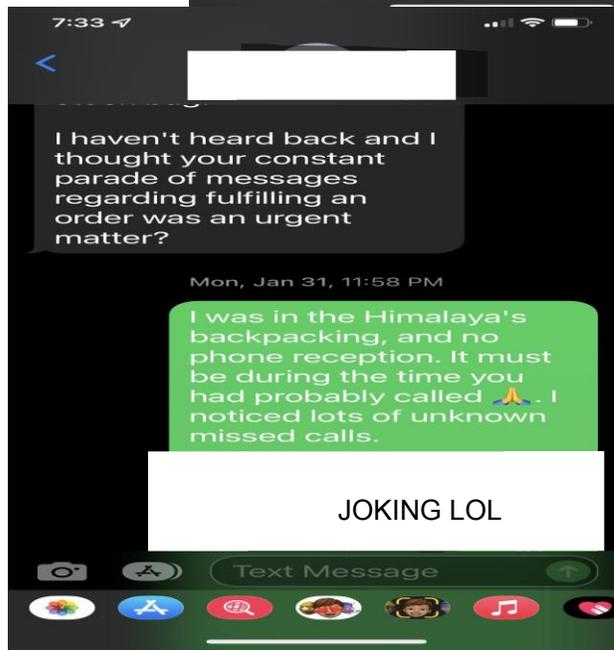

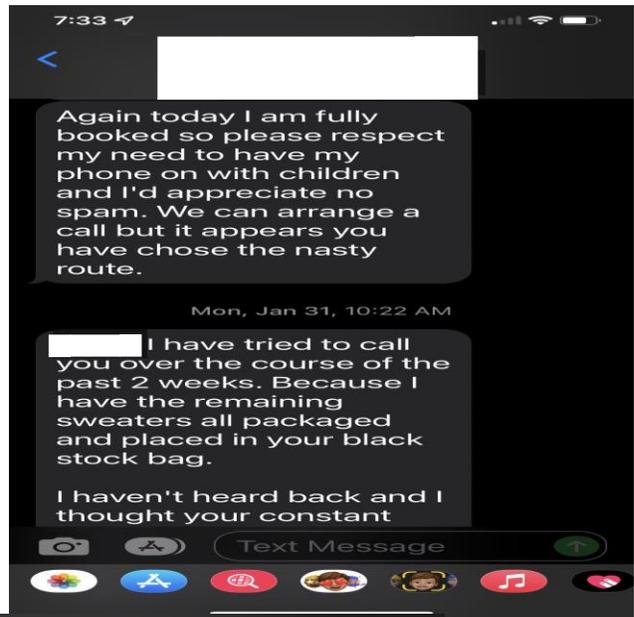

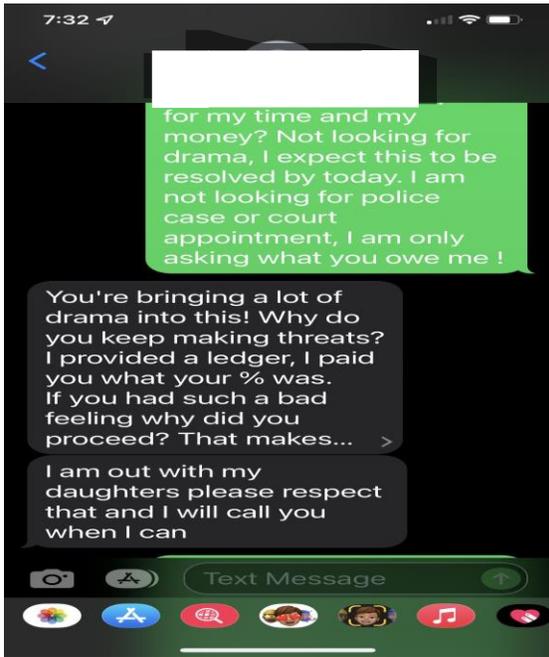

7:30

I'm sorry I wouldn't have moved forward if that was the case. Because retail is always more than wholesale not the other way around

This was an opportunity for me to test the market and see if this collection would fit in with my current collection and clientele. This way I know I can sell them and can do calculations to see cost vs retail price.

Than I can budget and plan for spring - winter having these items and doing a large wholesale order through you

CONTRACT??

There is no record of missed call or an email, had no intention of returning goods
